Bathroom Cleaning CHECKLIST

DAILY

- After a shower, squeegee your shower door, tiles, and shower floor to keep limescale and streaks from forming
- Quickly wipe down your counters and faucet from the water and toothpaste splatter right after brushing your teeth or washing your face or hands (and make sure to put your toothbrush away)
- After going to the bathroom first thing in the morning, give your toilet bowl a quick scrub with a toilet bowl brush (3 scrapes is all you need)
- Declutter your counters by having an organized space to keep all of your daily products (a bin on the counter is really helpful if you use a lot of items and want a quick declutter)

- Pick up any towels (don't forget the hand towels) or clothes on the floor and put them in the laundry

- Straighten your bathroom rugs or bath mats

- Close your shower curtain

Bathroom Cleaning **CHECKLIST**

WEEKLY

- Wipe down your mirror(s)
- Dust lights and your fan as well as the top ledge of the mirror
- Scrub your shower / tub
- Clean shower head (you may need a limescale remover if you have hard water)
- Clean countertops
- Scrub the toilet inside and out
- Sweep and mop floors
- Put away any clutter
- Wash your towels
- Wipe off knobs and light switches that build up finger grime and smudges
-

MONTHLY

- Bleach your shower liner (if you don't have a door)
- Wash your shower curtain (if it's white you can soak it in the tub with the liner)
- Organize your cabinets and drawers if they're a mess
- Throw away any expired medications or unused body and face products
- Replace any worn-out towels
- Unclog your drains (we all lose hair in the shower)
- Apply a limescale remover or soak your showerhead
- Use a thin tool (such as the end of a detailing brush if it has a pointed silicone edge meant for scraping corners) to clean the areas around the drains, toilet, and sink
- Wipe the faces of your cabinets (including the medicine cabinet)
- Wipe down your baseboards

Bathroom Cleaning CHECKLIST

SUPPLIES

- A toilet bowl cleaner
- Glass cleaner for windows and mirrors
- All-purpose cleaner (for counters and outside of toilet)
- Maybe a new scent plug in
- Baby oil to get your faucets to shine and repel water stains
- Shower and tub cleaner (or a spray bottle of your favorite natural bathroom cleaner)
- Cleaning gloves
-
-

- Washcloths (Use 3 different colored microfiber cloths for toilet, mirror and counters – each color representing a different surface so you're not cross contaminating as you clean)
-
-
-
-
-
